

Telos ambassadors : serious game

Reset humanity

Project Objectives :

The telos ambassador is a serious game to promote telos, all over the world. One of the objective of the game is to onboard 1,000 ambassadors on a period of 10 years. Each Ambassador represent telos in one city.

To become one ambassador, someone have to buy a non fungible asset on the website of the game : tlambassador.space

Each card is uniq. For the next 12 months, the rice of one card is 1,000 telos The price is reevaluate each year for the next following 12 months. Each ambassador can sell his card on the market at any moment, if he wants to get out of the game. (You can try the kolobok game at <https://telos.kolobok.io/koloboks> for a better understanding of what non fungible asset is !)

100 new cards for 100 new ambassadors will be create each year. The account tlambassador is the emitter of the card. The collected telos are stake in T-REX to increase the capital of the game.

Each month, an ambassador will have a task to perform: the first 4 tasks to perform for new ambassador is :

- Onboard a nonprofit organization
- Learn non-violent communication
- Practice meditation
- Spread good news about telos
- Decrease his/her ego

Ambassadors can propose new task to the game When succesfull, an ambassador earn some JOY, a telos token.

An ambassador can be revoked by a commission composed of other ambassadors.

Citizen can contact the commission to ask for the revocation of an ambassador when the activity of the ambassador does not fit the values of the game.

Costs: Website implementation : to be evaluate with Cards Designs making: to be evaluate with telos designers Marketing: to be evaluate with the first group of ambassadors

3 major catastrophes may occur during the 10 years of the game:

- Asteroid collision
- Super volcano burst out.
- Shift of the earth inclination.

Occurrence of any of these catastrophe would reset the game to 0.

Financing the telos ambassador serious game : June 2020 : christelos55, the inventor of the game, is requesting 10,000 telos to manage the implementation of the game in June.

People can already send 1,000 telos to the account tlambassador with the name of the city they want to represent as a memo. If at least 35 people buy ambassador cards, the game can self kick start.

A new worker proposal will be post in June to cover July expenses and development.
