

Telos ambassadors : serious game

Reset humanity

Project Objectives :

The telos ambassador is a serious game to promote telos, all over the world. One of the objective of the game is to onboard 1,000 ambassadors. Each Ambassador represent telos in one city.

To become one ambassador, someone have to buy a non fungible asset on simpleassets.io and follow the rules at the website of the game : tlambassador.space

Each card is unique, they are non fungible assets. For the next 12 months, the price of one card is 1,000 telos The price is reevaluate each year for the next following 12 months. Each ambassador can sell his card on the market at any moment, if he wants to get out of the game.

(You can try the kolobok game at <https://telos.kolobok.io/koloboks> for a better understanding of what non fungible assets are !)

New cards will be create when a new ambassador is showing up. The account tlambassador is the first owner of the card.

Each month, an ambassador will have a task to perform: the 12 tasks to perform are:

- Onboard a nonprofit organization
- Learn non-violent communication
- Practice meditation
- Spread good news about telos
- Onboard another ambassador
- Decrease your ego
- Promote the Acorn basic income.
- Help someone
- Make a gift to someone
- Smile and like what it is with Byron Katie

- Say yes to all the events of the week
- task 12 will be kept secret until the 11th first tasks has been accomplished

Ambassadors can propose new tasks to others ambassadors. When succesfull, an ambassador earn some JOY, a telos token.

An ambassador can be revoked by a commission composed of other ambassadors.

Citizen can contact the commission to ask for the revocation of an ambassador when the activity of the ambassador does not fit the values of the game.

Costs:

- Website implementation : to be evaluate with simpleassets
- Cards Designs making: to be evaluate with telos designers
- Marketing: to be evaluate with the first group of ambassadors

3 major catastrophes may occur during the 10 years of the game:

- Asteroid collision
- Super volacano burst out.
- Shift of the earth inclination.

Occurence of any of these catastrophe would reset the game to 0.

Financing the telos ambassador serious game : June 2020 : christelos55, the inventor of the game, is requesting 10,000 telos to manage the implementation of the game in June.

People can already send 1,000 telos to the account tlambassador with the name of the city they want to represent as a memo. If at least 35 people buy ambassador cards, the game can self kick start.

A new worker proposal will be post in June to cover July expenses and development.

Governance: Telos Ambassador governance is run following the teal organizations principles as describe in Frédéric Laloux's book "reinventing organizations"

Telos ambassadors on duty:

Name	City	Country	card ID
Justin	San Fransico	USA	100000000001296
Citimillz	Uyo	Nigeria	100000000001305

To see the card copy <https://telos.simplemarket.io/products/asset/> + card ID in your brower

Available positions

Name	City	Country	card ID
Available	New York	USA	100000000001296
Available	Chicago	USA	100000000001303
Available	Miami	USA	100000000001295
Available	Paris	France	100000000001294

You want to be a telos ambassador in your city ? Claim your card on telegram to <http://t.me/chrisaiki>

FAQ

Do I need to do each task each month ?

No, an ambassador is only performing one task per month

What happens if I am not successful to perform my task ?

Nothing, you skip to the next task, you can choose one new task in any order, from the list or propose a new task.

I want to stop the game

You can transfer the card to someone else or to tlambasador at any times. You can burn it or sell it at any times. Please inform chrisaiki that you have stopped.
